

Fayette County Head Start and Early Head Start Health Fairs
Tamria Hileman, Fayette County HS/EHS Health Services Coordinator

FC HS/EHS Home Based staff held Health Fairs for their enrolled families on August 10th at the Lemont Furnace Center and August 12th at the Connellsville Township Center. The theme for the fairs was “Step Right Up for Good Health”. It was a carnival environment for all who attended.

Families got to enjoy a fun-filled day of activities, games and tasty treats while also getting health screens and dental exams completed. The staff had many games and fun crafts that included a duck pond and spin art. Children who completed the activities were given prizes for their efforts. The STEM room, at both centers, was also available for families to experience as they explored and played.

The Child Health and Safety Team School Nurses completed hearing and vision screens, and lead and hemoglobin testing on children who attended. Cornerstone Care Dental provided dental exams and oral hygiene education to families that included our youngest participant who was 9 months old with two teeth.

During their time at the event, the families were able to have fun at the carnival and learn the importance of preventive medical and oral health care. Health Screening and dental exam results were provided to the parent at the event. It was an enjoyable time for the parents and children who attended.
