

Welcome to Southmoreland Pre-K Counts!!! We are located at Southmoreland Elementary School in Scottdale, PA. Our Pre-K Counts classroom is dedicated to the development of the children we service. We accept children age's three to five and help in their transition to Kindergarten. When children attend our program; they are fortunate to have a similar experience that they will encounter when they go to Kindergarten. At our school the children eat breakfast and lunch in the cafeteria, go to library and gym class, have a classroom with ample learning tools to aid in all areas of development, and a fenced in playground to bring the learning environment outside!

We've been at this location since November 2014. Southmoreland and the Scottdale community have welcomed us from day one of being part of the school and making our classroom feel as one with the school and community. We take pride in the relationships we build with not only our students in class, but their families as well.

Southmoreland Pre-K Counts has been hard at work learning about the life cycles of the plant and butterfly! They have planted their own flowers, starting from seeds, they've learned how plants drink water, and what they need to be able to grow big & strong! In our water table, they have had the opportunity to use their imaginations and creativity to plant their own floral garden. The book; The Very Hungry Caterpillar by Eric Carle is a classroom favorite! Our class has put the book in sequence order using our puppets, made edible butterfly life cycles and have decorated our room with their symmetry butterflies! Our class is ready for all the wonderful things Spring has to enjoy, now we are just hoping Mother Nature lets it happen! ☺

Come enjoy some time at Southmoreland Pre-K Counts and everything we have to offer for your children and your family!

♥ Ms. Jess & Ms. Sheri
